

Technical Data Sheet

Sunpol 4501

Long Oil Alkyd

4501 is a dehydrated castor oil-based long oil alkyd at 100% solid. This resin is specifically designed with low viscosity and low color while providing fast dry. This unique combination allows for the formulation of low VOC products without compromise on dry time or finished properties. Used in penetrating finishes or in a range of products as a reactive diluent.

Benefits:

- ✓ Fast Dry
- ✓ Good Flexibility
- ✓ Low Color
- ✓ Non-Yellowing
- ✓ Low VOC

Applications:

- Architectural Enamels
- Penetrating Finishes
- Air Dry Applications

Typical Properties:

Viscosity (Gardner)	R-T
Percent Solids (Weight)	100%
Color	5 Max
Acid Value	12 Max
Density (lbs/gal)	8.2 +/- 0.1
Appearance	Clear

Additional Information:

Store in a dry location avoiding temperatures above 100 °F. Avoid contact with air/oxygen to ensure shelf life of at least one year. For all questions pertaining to this product (safety, quality, technical advice, etc.) please email info@sunpol.com
