

Technical Data Sheet

Sunpol 5022

Uralkyd

5022 is an uralkyd resin based on soybean and provided at 60% solids in Rule 66 Mineral Spirits (MS).

Benefits:

- ✓ High hardness
- ✓ Flexibility
- ✓ Low color
- ✓ High durability
- ✓ Chemical and solvent resistance

Applications:

- Wood flooring
- Clear interior finishes
- Enamels and primers

Typical Properties:

Viscosity (Gardner)	U-W+
Percent Solids (Weight)	59-61%
Reduced Viscosity in MS	G-I+ @ 55% NVM
Color	4 Max
Acid Value	1.0 Max
Density (lbs/gal)	7.60 +/- 0.1
Appearance	Clear
Solvent Type	Rule 66 Mineral Spirits

Additional Information:

Store in a dry location avoiding temperatures above 80 °F. Avoid contact with air/oxygen to ensure shelf life of at least one year. For all questions pertaining to this product (safety, quality, technical advice, etc.) please email info@sunpol.com
